

## H-BND-ELGAE1-CL Determine Eligibility Automated Exception 1

### Artifact Content

**User Story ID:** 22565

**User Story Title:** H-BND-ELGAE1-CL Determine Eligibility Automated Exception 1

**User Story Summary:**

- This user story defines the trigger that runs AE1 rules and the result after running the rules.
- This is a delta story to remove the validation for PPC of 10 from the existing implementaion. Only PPC=1-6 will be validated as part of AE1 model.
- Updated the AE 1 flow for EMRO. The Payment Type = EFT constraint is eliminated from AE 1 rule. Please refer to the attached updated AE1 flow chart.
- Updated the AE 1 flow for CR F0101. The HO4 policy check (Has Current HO4 Policy) has been replaced by Have prior homeowners or renters insurance with continuous coverage prior to the new policy effective date. Please refer to the attached updated AE1 flow chart (Policy Type = HO4)
- This delta change is to make the Loss Risk from ineligible to allow the UW to override the Risk. Now, where there is a loss, UW is allowed to override .
- Purpose of this story version is to enable Automated Exception 1 during the manual update onto the Renewal image.
- As part of AE Model Simplification CR, AE2 and AE3 rules are consolidated into the AE1 model and system executes this model whenever the consolidated AE1 trigger conditions are met.
